

## **Amendments to the Claims**

**1. (Currently amended)** A method for treating inflammatory disease ~~diseases~~ of the external segment or the anterior segment of the ~~eye~~eyes, which comprises administering to the eye an aqueous eye drop comprising 2-amino-3-(4-bromobenzoyl)phenylacetic acid or its pharmacologically acceptable salt or a hydrate thereof and at least one organic amine selected from the group consisting of an amino acid, an alkanolamine, ethylenediamine, trimethylenediamine, a piperazine and an aminoalkylsulfonic acid once a day, and maintaining a therapeutically effective concentration of 2-amino-3-(4-bromobenzoyl)phenylacetic acid in the anterior aqueous humor of the eye for at least 24 hours after the intraocular administration.

**2. (Cancelled)**

**3. (Previously presented)** The method according to claim 1, wherein the concentration of 2-amino-3-(4-bromobenzoyl)phenylacetic acid or its pharmacologically acceptable salt or a hydrate thereof in the aqueous eye drop is 0.01 to 0.5w/v%.

**4. (Cancelled)**

**5. (Currently amended)** The method according to claim ~~2~~1, wherein the organic amine is an amino acid and its concentration is 0.35 to 5w/v%.

**6. (Currently amended)** The method according to claim ~~2~~1, wherein the organic amine is an alkanolamine and its concentration is 0.15 to 0.95w/v%.

**7. (Currently amended)** The method according to claim ~~6~~1, wherein the alkanolamine is trometamol.

**8. (Currently amended)** The method according to claim-~~2~~ 1, wherein the organic amine is ethylenediamine or trimethylenediamine ~~a diamine~~ and its concentration is 0.05 to 5w/v%.

**9. (Currently amended)** The method according to claim-~~2~~ 1, wherein the organic amine is a piperazine and it is contained at a concentration of 0.05 to 5w/v% in the aqueous eye drop.

**10. (Currently amended)** The method according to claim-~~2~~ 1, wherein the organic amine is an aminoalkylsulfonic acid and its concentration is 0.05 to 5w/v%.

**11. (Previously presented)** The method according to claim 10, wherein the aminoalkylsulfonic acid is aminoethylsulfonic acid.

**12-35. (Cancelled)**
